## RENSELAER COUNTY WATER & SEWER AUTHORITY

### TOWN OF EAST GREENBUSH JOINT WATER SYSTEM IMPROVEMENTS

This ongoing project involves the planning, permitting, design and construction of two new 5.0 million gallon prestressed concrete potable water storage tanks and a 5.75 MGD emergency booster pumping station for the Rensselaer County Water and Sewer Authority. The project includes demolition of an existing 4.0 MG steel storage tank, and installation of a back-up generator and new

radio based SCADA system that provides controls for three separate master meter locations, tank levels and the emergency booster station. Construction began in the spring of 2009 and is expected to be completed in the fall of 2010.

*Estimated Cost:*            \$6.0 million  
*Facility Capacity:*        5,750,000 gpd
